

In reference to MB Docket No. 04-233 which could adversely effect our local radio station. It has come to our attention that our station could be replaced by a LPFM station if the referenced docket is approved. K-LOVE serves our community in an unusal way and the listenership and support has grown strongly since they began broadcasting in our area. It would most certainly be a detriment to our community to loose this station as there is no other like it in our area. Thank you Duane McCartney
